?

Sentence with Doot-du'-due:

"Did I just see you throw away a doot-du'due? Don't you know I'm saving doot-du'-dues for a Camp Cigma project."

The Story Behind Doot-du'-dues:

Now here's how the story unfolds, or perhaps I should say "unrolls". At Camp Cigma, our Engineer of Dreams, Lydia Corn, sees great potential in, well, almost anything. Hence, she's called Engineer of Dreams. One ordinary day she says to Ilan, Director of Imagination Development, and Josh Corn, Director of Possibilities, "I've been saving Doot-du'-dues."

Ilan responds, "Great! What for?"

Lydia answers, "I have no idea, but you'll be able to figure out something great to do with them." That is why she is nicknamed The Muse.

Josh says, "I might be able to build a state-of-the-art co-axial teleportation illusion solely out of Doot-du'-dues. Give me twenty minutes to crank out a design."

Ilan responds, "You get ten minutes and not a second more. Go!"

And so goes a typical unordinary workday at Camp Cigma where we believe: "Limits promote creativity." And now we're asking you to join us. Email your creative ideas to info@campcigma.com. Also, start saving your own *Doot-du'-dues* to bring to camp. We're going to need lots of them because this very well may be the largest *Doot-du'due* collection in recorded history. We're having a contest to find out who can come up with the most creative use for a Doot-du'-due, so email us a description and/or a picture of your best ideas. The winner will receive a surprise Cigma Package filled with Cigma goodies. This contest ends on April 23rd, 2009, so make sure to get us your ideas by then. We'll announce the winner in our next newsletter.
